

LogiLink®

Art No. PS0008

WLAN Printserver 2x USB & 1x Parallel

Features

- Complies with IEEE 802.3, 802.3u and 802.11b and 802.11g standards
- Supports 64/128-bit WEP and WPA-PSK (TKIP and AES) wireless security.
- Provides 2 USB2.0 and 1 parallel ports for the printer connection
- Shares 2 USB printers and one parallel printer through 10/100Mbps wired or IEEE 802.11g/b wireless network.
- Supports TCP/IP, NetBEUI, IPX/SPX, Rendezvous, AppleTalk and IPv6 network protocols.
- Supports LPR, IPP, Raw Printing and Unix Logical printing protocols.
- Supports Peer-to-Peer Printing and Server-based printing.
- Compatible with all major operating systems (Windows 98SE/Me/NT/ 2000/XP/2003/Vista, NetWare 3.x above, MAC OS and Unix/Linux.
- Supports Web-based management and Windows Configuration Utility.
- Supports DHCP Server and Client protocols.
- Easy-to-use installation and configuration
- Fault-Tolerant firmware upgrade
- Flash: 2MB NOR Flash
- RAM: 16MB SDRAM
- Ports: USB 2.0 X 2, DB-25 Parallel x 1
- LAN Port: 10/100MBit RJ45
- Antenna: External 2dBi Dipole Antenna
- Dimension: 30(H)*187(W)*100(D) mm
